

## PRODUCT INFORMATION SHEET

### PLONER protective helmet

#### Product description

A protective helmet made of ABS plastic has ventilation holes, holes for attaching earmuffs. In addition, side handles are used to attach additional face, eye and hearing protection. The shell retains resistance to impact at low temperatures, it has high hardness and scratch resistance. 6-point framework, made of very durable polyester tapes, does not burn as in the case of plastic frameworks. An adjustment knob at the back of the helmet, made of nylon, ensures a perfect fit to any head size. Equipped with a 4-point chin strap. It is perfect for conditions requiring effective protection, excellent ventilation and maximum field of vision. It is made in accordance with the EN 397 standard. Designed for professional use.

#### Characteristics

- holes for attaching earmuffs, side handles for attaching additional face, eye and hearing protection;
- ABS helmet shell material;
- knob adjustment - perfect adjustment to the circumference of the head;
- 6-point framework;
- ventilation holes;
- hygroscopic micro foam sweat preserver;
- narrow eye-shade ensuring a good field of vision;
- protects against UV radiation;
- weight 400 g.
